DETAILED ACTION

Specification

The abstract of the disclosure is objected to because the second sentence is a run-on type sentence. Correction is required. See MPEP § 608.01(b).

The title is objected to because "PSC" should be replaced with a recitation of the entire phrase. Correction is required.

Claim Objections

Claims 1-4 are objected to because of the following informalities: recitations of "PSC" should be replaced with recitations of the entire phrase. Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims are generally narrative and indefinite, failing to conform with current U.S. practice. They appear to be a literal translation into English from a foreign document and are replete with grammatical and idiomatic errors.

Regarding claims 1 and 2, the phrase "such as" renders the claim indefinite because it is unclear whether the limitations following the phrase are part of the claimed invention. See

MPEP § 2173.05(d). Note that use of this term also creates a problem regarding proper antecedent basis of limitations which follow "such as" but are then positively recited in the dependent claims.
